PROFESSIONAL PROFILE

Jr. Software Developer with experience building full-stack web applications with Django, Node.js and React, integrating APIs and AI/LLM models, and managing PostgreSQL databases. I have designed and implemented backends and cloud services for e-commerce and data analysis platforms, focusing on automating processes and building scalable solutions. I am currently in my final year of an Associate Degree in Software Analysis and Development (SENA) and I'm looking to keep growing in backend architecture and AI-driven product development.

TECHNOLOGIES

Programming Languages: Python, JavaScript (ES6+), TypeScript, PHP
Backend: Django, Node.js & Express.js, Next.js
Frontend: React.js, HTML5, CSS3
Databases: PostgreSQL, MySQL
AI & APIs: AI model integration, LLM APIs
Tools: Git, GitHub, Deploy (Vercel/Render)

FEATURED PROJECTS

CREACIONES EMALELI

Custom Product E-Commerce Platform.

Stack: TypeScript, Next.js, PostgreSQL

Designed and built a custom e-commerce platform inspired by models like Shein/Temu, with a product catalog, variants, and image gallery.

Implemented product customization, shopping cart, checkout, and order management, integrating customer notifications via WhatsApp.

Built an order and production management dashboard with Prisma and PostgreSQL (Supabase), centralizing business operations in a single system.

MISI FRAMEWORK

PHP Framework for Small Business Management Systems

Stack: PHP, HTML5, CSS3, JavaScript, MySQL

Designed a lightweight, modular PHP framework aimed at speeding up the creation of administrative and management systems for small businesses and startups.

Structured the framework into reusable modules (authentication, CRUD, user management) with MySQL, reducing initial setup time for new projects.

WORK EXPERIENCE

Software Developer - AxisGerSam

May 2026 – August 2026

IT Support Agent - Universidad Simón Bolívar

September 2023 – April 2024

EDUCATION

Associate Degree in Software Analysis and Development (In progress)

Servicio Nacional de Aprendizaje (SENA), Colombia

April 2025 – September 2027

Systems Technician

Servicio Nacional de Aprendizaje (SENA), Colombia

January 2023 – April 2024

SKILLS

Problem solving.
Critical thinking.
Continuous learning.
AI-assisted analysis and development.
Adaptability.
Effective technical communication.
Teamwork.
Remote collaboration.
Incident management.
Time management.
Responsibility and commitment.
Results orientation.

LANGUAGES

Spanish: Native
English: Intermediate (B1)
